WILSON'S PROPER JOB

(Don Marquis in New York Sun)
When the message of the president
recommending that Pershing and
March be made generals for life, was read to congress. Representative Bianton of Texas, a democrat, in-

quired:
"Would it be in order to move amendment of message by making Woodrow Wilson the permanent president of the United States?"

Arizona, at \$130 o'clock in the evening of the 11th day of August, 1919, and thereafter considered. For school purposes and an addition to the present East School Building of School District Number 14, the proposed location of the said school buildings and addition being on the school grounds now owned by School District Number 14 of Maricopa County, State of Arizona.

Plans and specifications prepared by Henry O. Jaasted, architect, whose address is Tucson, Arizona, may be obtained from the County Superintendent of Schools of Maricopa County, Arizona, at Phoenix Arizona, together with full information as to the proposed work, after July 30, 1919, and will be office of the said County Superintendent of Schools in the Court House of Maricopa County at Phoenix, Arizona.

Communication with the spifit world has progressed to such an extent as to make it rather easy to get the advice and counsel of great men after they leave this plane. We hope and believe that Mr. Wilson will live for many, many years; but when he does finally pass over there is no reason why he should not continue to rule this planet for millions and millions of years from the other side.

If this could be brought to pass the future should see a league of planets come into existence. The worlds have never understood each other; the stars have sung different tunes; there is work here for an enterprinsing and ambitious democrat and democrat! there might be objection and dissent, here and there; there might be a Shan-

tung breaking out here and there, like tung breaking out here and there, like a blotch from the operation of a dull safety razor blade on the face of this, that or the other solar system; but Shantungs are trivial details; a certain number of Shantungs in a Cosmos are, we must suppose, unavoidable; every little planet has a Shantung of its own. Anyhow, what's a Shantung between friends?

May we not suggest that if some-

ley and delta districts of the San Joa-quin river in California, which supplies Phoenix with the greater part of the potatoes consumed, there is likely to be a great shortage here. There is also a car shortage, and prices may take a further rise in all lines of pro-duce as a result of this. Desiers Are Paying

FIRST OFFERING Arizona - Globe Copper

25c per share, par value \$1.00 per share, full paid and non-assessable. An Arizona Corporation.

Arizona-Globe Copper Compan; located in the heart of the greatest copper district in the world, between Globe and Miami. Pronounced by engineers of note as the coming big mine of Arizona. Nearly \$1,000,000.00 of ore in sight for the purpose of further development with planning for big mill. Company offers to sell a limited number of shares of its full paid and non-assessable stock of 25c per share.

Millions of dollars are being paid annually by the copper mines of the Globe-Miami district, in which district the property of the Arizona-Globe Capper Company is located. It is the plan of the directors of this company to make application for the listing of this stock on the New York curb and other eastern markets. That we are on the eve of one of the biggest copper booms this country has ever seen, is evidenced by the steady advance in the price of copper which now has reached the high figure of 25c per pound, and it is predicted by those who know, that it will reach 30c per pound very soon. Don't wait. Buy your stock now while it can be had at the present

price of 25c per share. We feel confident that this stock will be selling at par, \$1.00 per share by the time we are ready to make application for Address all communications and send orders for stock to the Arizona-
